Subject: Harm Reduction Meeting, September 19 - 20

Dear George:

Your agenda underlines the importance of that meeting for the upcoming planning sessions. Therefore, I think it is feasible that we attend with some more participants than usual. I propose to assign Klaus von Holt to the "disease endpoints" topic and Ewald Roemer to "in vitro/in vivo biological testing".
I would like to contribute to the discussion on "mechanism of those diseases" by presenting an alternative view on chronic toxicity (1 hr).

In summary, please plan for a total of 5 INBIFO/CRC participants: Ewald Roemer, Klaus von Holt, Hans-Juergen Haussmann, Piter Terpstra, and Wolf Reininghaus.

Best regards,
Wolf
